

TONY WATSON Project Superintendent

"Job very well done. This is the first project I have been involved with that was without any punchlist items, not to mention the short time frame in which the project was completed."

Kevin Rottinghaus
Sprint Telecommunications

After interning and working with its founders since 1997 at their previous company, Winter Construction, Tony Watson joined The Blue River Group in August of 2004. Over the past ten years, Tony developed a strong background in the implementation of mechanical, electrical and plumbing systems as well as other field management challenges. Tony is an extremely well organized and communicative project superintendent.

As project superintendent, Tony is responsible for the on-site construction activities on a daily basis. His responsibilities include the following:

- Implementing and assists developing the construction plan
- managing subcontractor's activities
- assuring construction compliance with design and quality requirements
- supervising and coordinating field engineering and construction activities
- managing safety and environmental programs
- assuring compliance to project construction schedule and budget
- providing on-site coordination of the commissioning process when applicable.

Tony has a Bachelor of Science in Building Construction from the Georgia Institute of Technology and has current certification training as a NPDES Qualified Person, an OSHA's 10 Hour Certification, S.T.A.R.T. (Supervisor Training in Accident Reduction Techniques), Excavation and Trenching, Fall Protection, and Red Cross Certification in First Aid / CPR.

Tony also represents The Blue River Group through Community Involvement and in 2003 received The Atlanta Partner's for Education Award for Career Connections serving as Co-Chairman for Atlanta City's Southside High School Local Industry Council.
